

## Franks Mechanical Contractors Testimonials

"From the moment Franks Mechanical stepped on the jobsite through substantial completion and punch list, your team worked tirelessly to make the project a tremendous success. As a General Contractor, it is refreshing to work with a company as organized and proficient as Franks Mechanical. Franks Mechanical made our management of the project exponentially easier."

**- Rob Wissolik, Project Manager**

"Your diligence and innovation have been consistently displayed throughout the course of our projects. As a builder of high quality residences in a sophisticated and unforgiving urban market, we count upon the skill and professionalism of our principle trade contractors to deliver a first class product. Your firm is a credit to the professional plumbing community."

**- Carl Groesbeck, Program Manager**

"Congratulations on 50 years of success for Franks Mechanical. It has been a pleasure to work with your company. Your company and employees have been able to anticipate the needs of the projects and react to changing conditions to keep the projects moving smoothly. We have had several successful projects together and I look forward to working together in the future."

**- Jay Jacobsmeyer, Senior Project Executive**

"We find Franks Mechanical to be an excellent company in all phases of plumbing work. They employ quality tradespeople, well supported by project managers and administrative staff. They consistently perform in accordance with schedule and other contract requirements. Their design/build engineering and problem solving capabilities are an asset to a project team."

**- Lawrence H. Goldman, President**

**CONCORD HOMES** "Our experience with Franks Mechanical over the past five years has been outstanding in every way — quality of work, manpower available, code compliance, adherence to construction schedules, and timely warranty service when it was requested."

**- Glenn R. Rutledge, Executive VP, Operations**

"For over twenty years Franks Mechanical has been a valuable resource for us in the early stages of planning a project to provide information, value engineering services and cost effective solutions to bring a project in on budget without jeopardizing the quality of the project."

"Franks Mechanical has a thorough understanding of all codes and interfaces well with our consulting engineers. Franks Mechanical will offer an opinion if they find something in the plans that they feel will be a problem for the developer or end user. You will never hear Franks Mechanical say 'we built what was on the plans' when they know there is a problem with the plan."
